

Iowans value education. They know there's no greater gift you can give a child. And it's a gift that can truly last a lifetime.

Iowans also value masonry when it comes to their schools, gymnasiums, and administrative buildings. Masonry structures easily last more than a lifetime, not to mention their minimal maintenance, utility efficiency, and ageless good looks.

But the Masonry Institute of Iowa is interested in more than just building schools. We want to fill them with students who understand the value of good building products and procedures. And if we can help make that happen, we're ready to do our part.

If you're a high school senior or college or university student and you are interested in a career in:

- Masonry
- Construction
- Design
- Engineering
- Architecture

you may qualify for a Masonry Institute of Iowa Scholarship. Simply complete this form and return it to us, with the needed documents, by the deadline date. Our scholarship committee will review the material and get back to you with their decision. Apply today!

Founded in 1975, the Masonry Institute of Iowa provides service, leadership, education, and promotion in support of the masonry field statewide. Institute members include bricklayers, laborers, mason contractors, brick and block manufacturers and distributors, cement companies, masonry product suppliers, architects, and engineers – all working together to build a better Iowa.
